January News

Happy New Year!!

After all the preparation and decorating, the holidays sure flew by quickly. Now it is time to de-decorate; somehow it isn't as fun to take it all down as it was to put up. For 2018 we are planning some fun trips out, asking for suggestions from the clients about where to go and also what they would like to learn about. The last special event, compliments of the Conifer Newcomers and Neighbors Grant is Friday, January 8th after the Friday café:

What Can I Do?

This is a presentation with slides, music and great information on what each individual can do to help our planet.

Unwanted Seasonal Guests

*With the cold weather arriving, it tends to bring germs with it. If your loved one has an illness that is or may be contagious, please keep them home, so as not to expose other medically frail individuals at the program. **Participants that have a fever, vomiting, diarrhea, a green or yellow nasal discharge, or excessive sneezing and/or coughing should stay home.** If these symptoms develop at the program, a family member will be called to take the participant home immediately. Since we are a social setting, germs can travel very quickly in our environment. Help us preserve everyone's health by keeping any questionable germs home. Thank you!*

****New Adverse Weather Policy****

If adverse weather is expected to cause hazardous conditions before the SRC opens for business, the President & CEO may make the decision to close for the day. Some closures may be localized in nature.

To verify an Evergreen closure:

Call the main phone line 303-674-2843

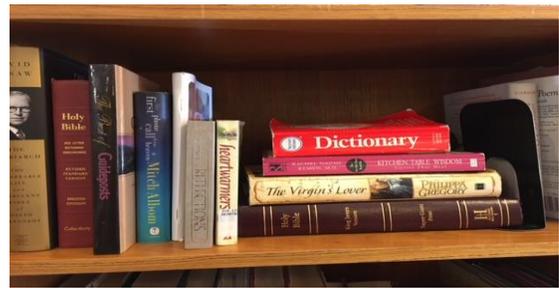

The voice mail will be updated by 4:45 am

If closing is anticipated the day prior, we will remind clients/families to call the main line in the morning.

Now, if SRC is open, up and running and adverse weather is presenting hazardous conditions, the decision may be made to close the Adult Day program early. If this is the case, Marilyn will call families to ask them to pick up their family member early or to alert them that transportation is bringing the client home early. No client, who is unable to stay home alone will be sent home without verbal verification from the family that the client will be arriving home early. If road conditions prevent family members from picking up a client, staff members will keep the client at the site until evacuation can be made to a safe place in the community.

Thank you all for understanding that safety is our first priority for everyone!
